# Pickard Plant is Remodeled to **Speed Production**

Changes to Allow Increase of 60 Percent in Output

Even in colonial days fine American china was beginning to make a name for itself, as admirers of "luster ware" and other early colonial ceramic products are aware. An evidence of the increasing estimation in which American china is being held is the growing vogue of the Antioch-made Pickard ware, which at the present time is causing an extensive remodeling job at the plant here.

According to estimates supplied by Certificates of Service Are Ray Gruidl, local manager, the extensive remodeling of the plant now being carried on, and additions and improvements in the line of equipment, will allow for a 60 percent increase within the next six months in the amount of chinaware produced at the plant.

Fire Department Acts to Curb Nuisance of Too-Curious Spectators

For the safety of on-lookers themselves, as well as for the better protection of property owners and the promotion of maximum efficiency in fire-fighting, the department is planning to deal severely with offenders from now on, it was announced today.

Regulate Spectators Antioch village ordinances passed on June 3, 1924, provide for the regulation of vehicles during fires, to the following effect:

"Vehicles shall not follow the fire truck at a distance less than 300 feet. "They shall pull to the curb (when in advance) and wait until such apparatus has passed.

The village fire ordinances also provide for the imposing of fines from \$3 to \$200 as penalty for infringing on

In that part of the fire district outside the village limits, in the township of Antioch, these ordinances are not in force but other motor laws are so worded that the firemen can use them for enforcing "clear zones" and can cause penalties to be brought against 'fire chasers."

In case the nuisance persists, the fire department plans to make examples of the worst offenders by causing heavy penalties to be imposed.

### Ring in the New!

As we celebrate the coming of the new year and tack the 1940 calendar up on the wall, it makes a lot of difference in looking back and in looking ahead whether we consider things from the point of view of the whole

The world, and especially Europe, will probably find little reason to remember 1939 with affection. But this country-though worried and shaken by the hard reality of a war abroad-finds certain aspects of the domestic

One of the chief of these is the appearance of a business recovery that this time seems to be the "real thing." Not a war boom, but an industrial upsurge that is meeting the long-delayed needs of Americans the country over, it shows promise of continuing the march towards higher standards of living that has in the past been typical of this nation as of no other.

Continuation of this drive towards prosperity on a sound basis, of course, will depend upon keeping certain fundamentals in mind. Some of these have fallen into neglect during the years of depression, and New Year is a logical time for all Americans to get them clearly in mind again. In this light, it would be well for all of us who have this country's welfare at heart to make a resolution to support and encourage the following fundamentals

### Only One in 130,000,000

As the propaganda goes forward to create the impression of a public demand that President Roosevelt run for a third term, it becomes almost a game to scan the backgrounds of those who are making the clamor

Thus far we have heard not a single peep from any person other than those who stand to gain selfishly by Mr. Roosevelt's reelection. The hue and cry is pitched upon the lofty service to the nation but invariably it boils down to saving some vested interest.

First there are the cabinet members. Anyone with half a mind knows why Secretary Henry Wallace and Secretary Harold Ickes want Mr. Roosevelt back in the White House. Unless he is there, they will return to the peaceful obscurity from which they emerged in 1932 to create their portion of the New Deal confusion.

Then there is little Tommy Corcoran and his sidekick, Benny Cohen, heads of the Brain Trust. They are the behind-the-scenes workers for a third term. There is not a candidate for the Presidency, Republican or Democrat, who has not promised himself and his friends to kick the Corcoran crowd as far from Washington as a carefully placed right foot will lift them.

Also there is the C. I. O. with its leaders in full cry for a third term but not so sure of their members. Every-1. Preservation of liberty for individuals as long as one knows what John L. Lewis wants and that is domination of American jobs to the detriment of the A. F. of L. There is the Communistic National Youth Congress which has gained a place in the White House sun.

FRIENDS AND FOES OF THE KINGDOM

LESSON TEXT - Matthew 13:54-14:4; GOLDEN TEXT—Ye are my friends, if ye do whatsoever I command you.—John 15:14.

Inventory time has come, and it seems that our lesson for today, although it does come in the middle of our study of the Gospel of Matthew, comes too to sort of a pause to consider what has been the result of that which Jesus had said and done thus far in our study.

The answer we find is that He had both friends and foes, both love and hatred. His foes apparently outnumbered His friends, and the hatred was evidently fierce and the love none too warm. So Jesus was defeated? No, far from it. As we know, He won the victory over His enemies.

The situation is not different to-day. Those who follow Jesus and love Him truly are quite evidently in the minority and all too often it seems that hatred for the cause of Christ has the upper hand. Are we defeated? No, Jesus will ultimately win the victory again. We are on the winning side.

I. Dishonored Because of Jealousy

One would have supposed that the people of the little, almost unknown town of Nazareth would have been thrilled at the return of its native son whose fame had also spread its name abroad and whose name was on the lips of thousands because He went about doing good.

They were astonished, but they were not ready to accept Him. They could not deny the fact either of His person or His power, but they could and did permit their personal pride and jealousy to lead them to deny Him. "This story teaches us the unutterable folly of refusing to accept fact because it is astonishing, yet there are thousands of people standing in that position today concerning Jesus Christ. It is utterly unscientific, not to say irreligious. Here is an astonishing thing. They say we cannot understand how this man hath this wisdom. Has He the wisdom? Why, yes, we cannot escape it. Then in the name of God and common honesty obey the injunction and postpone the investigation" (G. Campbell Morgan).

II. Hated Because of Sin (14:1-4). The pride of heart which causes many to hold themselves too good to follow the lowly Nazarene is sin. There is also that which even the world recognizes as sin which separates men from Christ. D. L. Moody is said to have written on the fly leaf of his Bible, "This book will keep you from sin, or sin will keep you from this book." That is true, and it is also true that sin

will keep a man from Christ. Herod, living in sin, had been rebuked by John and had silenced his accuser by the simple expedient of imprisonment and ultimately by beheading him. But one does not thus put away sin, and when this man heard of Jesus, he at once assumed that John had risen from the dead to plague him still. So Herod also took his place with the enemies of our Lord.

If a man shows his opposition to Christ, whether it be by indifference, or by jealousy, or in outright hatred, be sure there is sin in that man's life. Those who love righteousness love the righteous Lord. III. Accepted Because of Serv-

ice (15:29-31). The Son of man came not to be ministered unto but to minister,' even to the giving of "his life a ransom for many" (Matt. 20:28). We have so overemphasized and misused the word service that one almost hesitates to speak it in connection with the name of the Lord Jesus. Yet it does summarize His earthly life and ministry. He served l the needy with His teaching and preaching, with His provision for their daily needs, with His healing touch, and we read that they wondered and glorified God (v. 31).

We said above that the majority of men appear to reject Christ, but 1/21 does 7212/205/24/25/26/ 27 28 29 30 31

# RESOLVE

Made your resolutions for 1940? Here's a few you can make and break without much trouble—just for the sake of resolutioning!

"Candy? No, thanks, won't touch the stuff in 1940. Oh, well, I guess just one piece won't hurt."

"Going to (puff!) take this (puff!) stomach off me this (puff!) year if it kills me. Gotta (puff!) do this every (puff!) day."

"Lemme see . . . if I save 10 cents every day in 1940, that makes . . . m-m-m-m . . . thirty-six dollars and 50 cents a year."

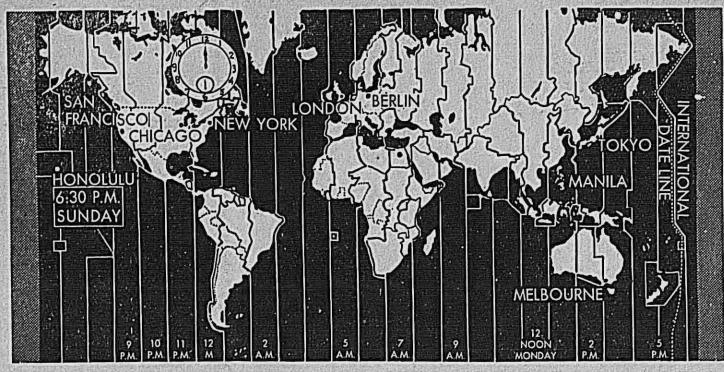

\_"I feel everyone should do her best to improve her mind in 1940 with good reading material. Let's see . . . what did that say? Kinda dry book. Guess I'll go to a show."

# How New Year Speeds Around the World

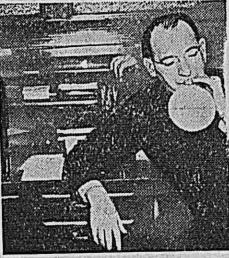

When 1940 reaches New York City in a blare of noise at 12:01 a. m. Monday, it will already be early Monday evening just east of Australia in the Chatham islands. Meanwhile, at Honolulu the clock will register 6:30 p. m. Sunday. The new year is born on the lonely Chatham islands, 414 miles southeast of New Zealand and races westward at 1,000 miles an hour. About 200 shepherds and fishermen in the Chatham group celebrate the New Year by ringing the church bell on Hanson island. The international date line, near these isles, was set by the British admiralty and runs near the 180th meridian of longitude.

For the sake of science Richard S. Kaplan, president of the Gary, Ind., safety council, volunteered to sit down with a quart of whiskey and test the accuracy of a "drunkometer," device for testing drinking

After his fourth "boilermaker," Kaplan sees everything through glowing eyes. He is happy, and all's right with the world.

Kaplan blows into the "drunkometer" balloon. Examination of his breath proved him to be in no condition to drive a car according to Indiana legal standards. Kaplan agreed with the machine's verdict. The test was made under a state expert's supervision.

Flees Exile

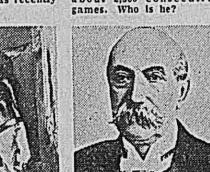

Fears that Ham Amin El Husseini, former grand mufti of Jerusalem who recently escaped from exile, may start a new anti-British terrorist campaign were expressed by government officials. The mufti, now in Iraq, is held responsible for the Arabs' campaign of terrorism.

The bride was presented in marriage by her father, and her sister, Miss Bernice Bauman, acted as maid of honor. William Bauman attended the bridegroom.

With her gown of dusty pink crepe the bride wore a blue hat and blue slippers. Her corsage was of white roses and sweet peas. The maid of honor wore a frock of blue crepe in a shade matching the accessories to the bride's costume, and blue slippers. Her hat was of dusty pink, and her corsage of pink carnations and sweet

The Rev. Joseph Bogle of the Fox Lake Community church officiated at the ceremony, standing before a bank of palms and gladioli arranged to give an altar-like effect. Miss Geraldine Bonner played the "Lohengrin" wedding march for the processional, and also accompanied the soloist, Willard Gieske of Barrington, who sang "Until" during the service.

Mr. and Mrs. Ferry left on a short wedding trip, the destination of which was not disclosed. They will return in time for the opening of school after the Christmas holidays, and will make their home, at Fox Lake,

Parties at which the bride has been honored include a shower held by the nurses of St. Therese hospital, (ct which the former Miss Bauman is a graduate) last Wednesday evening in Waukegan with the Misses Jessie Brosseau, Fanny Fortuna and Ann Horvath as hostesses. \* \* \*

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "For ever, O Lord, thy word is settled in heaven. O how love I thy law: It is my meditation all the day. Thy word is a lamp unto my feet, and a light unto my path" (Psalms 119:

The Lesson-Sermon also included the following passages from the Christian Science textbook. "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Jesus once said of his lessons: 'My doctrine is not mine, but His that sent me. If any man will do His will, he shall know of the doctrine. whether it be of God, or whether I steak of myself" (p. 109)

### He Works Next Door to Eternity

Huge gains in manufacture of munitions for domestic use is evidenced in busy munitions plants in the United States. Here a worker in a Dover, N. J., arsenal rivets the timing head on the end of a 75mm shell, one of the plant's most dangerous jobs. Workers are so busy they have little time to worry about the shadow of danger which hangs over the factory where death is packed into steel cylinders.

## Igloo Dwellers Go Modern—in New York

The Mayokoks, only full-blooded Eskimo family in the United States, were saved from a dangerous 7,000-mile journey to blizzard-swept Cape Prince of Wales, Alaska, when the husband found a new job. During the closed season Mayokok will serve as caretaker of the World's fair carrier igloo in New York.

### Chinese Junk Begins 19,000 Mile Voyage

On the first lap of their year-and-a-half voyage from Los Angeles t New York are Wendell Parks, left, and Dr. E. Allen Petersen, right, to-gether with his Japanese wife, Tani. The trio, sailing a Chinese junk, will route themselves via the Straits of Magellan. When they arrive in New York they will have traveled 19,000 miles. Dr. Petersen and his wife were members of a crew that sailed the Hummel Hummel, a 36-foot boat, from Shanghai to Los Angeles. The crew of the diminutive vessel expects to arrive in New York some time in 1941.

# Serving Same Purpose for Germany?

France and Britain claim that George Elser, left, arrested by Germany for setting the Munich bomb which almost killed Adolf Hitler, is merely a "stooge" and that the bombing was planned to provide an excuse for purging Nazi ranks of undesirables. It was recalled that similar allegations were made about the Dutch communist, Marine van der Luebbe, right, whose arrest in 1933 for starting the large was a championship open pollenated yellow prelude to suspension of German civil liberties.

time, and there was every indication that Western hemisphere governments would tolerate no more of these carryings-on. Guided by the U.S., nations which established a fanciful "neutrality zone" at Panama City last October began laying their plans.

It was revealed that the U.S. had agreed to join Brazil and Argentina in helping Uruguay force Graf Spee out of Montevideo harbor, had the pocket vessel refused to move. Stirred to even greater action by the Columbus and Arauca incidents, Pan America planned to put teeth in its neutrality declaration. The teeth: Any belligerent warship that violates the principle of the neutrality zone will be accorded no assistance in American ports. If a ship guilty of such violation seeks refuge or repairs in an American port, it and its crew will be interned for the war's duration.

Nobody expected Britain and Germany to pay much attention; indeed, a London paper pointedly re-marked that American nations had no right of sovereignty over extra-territorial waters. But Washington at least hoped the restrictions would prevent fighting in American terri-

Already interned by Argentina are the 1,039 crewmen of Graf Spee who found themselves scattered hastily to provinces far from the ocean.

### THE WARS:

In the West

Not all of Europe's mid-December warfare took place in American waters (see above). The western front was quiet as usual, but Britain's new "security patrol" over the North sea ran into a pack of Messerschmidt trouble.

Purpose of the patrol is to keep mine-laying German planes at their bases during the early morning

PAN AMERICA:

Violations

Determined to "share the fate of his ship," Capt. Hans Langsdorf of the scuttled German battleship Graf Spee blew out his brains in a Buenos Aires hotel. At Port Everglades, Fla., rested the Nazi freighter Arauca, driven to refuge when a British warship fired across her bow a few

Apparently the "security patrol" bogged down shortly thereafter, for the Germans, no longer laying mines, began dropping aerial torpe-does on British merchant craft. Lost by this and other means were 23 allied vessels in three days.

Other war news:

© French Navy Minister Cesar Campinchi figured the British had sunk 30 to 35 Nazi U-boats, and that France had scored 10 times. His conclusion: The Reich has lost be tween 42 and 47 of the consultation rines she had when the war started.

Lumbering down Finland's arctic highway came a huge motorized Soviet army while plucky guerilla fighters pecked away at the roadside. Russian casualties: About 30,000 men and 200 tanks. But it was victory of a sort, and that was what Moscow demanded. A Copenhagen powerpage reported that hagen newspaper reported that

Day after this Russian advance, the resourceful Finns made themonce by changing her superstructure to resemble the British cruiser Renown. London heard how its cruiser Exeter had staged a valiant fight against Graf Spee until help arrived. Said the report: One seaman, who had both legs shot off, commented that he was "not doing too badly under somewhat adverse circumstances." He died a few hours later.)

The Spee, Columbus and Arauca incidents brought Europe's war to Pan-American shores for the first time, and there was every indication that Western hemisphere gov-

tee the Finns sent word that they could hold out all winter if they got planes and guns. League Secretary-General Joseph Avenol got to work immediately, sending Helsinki assurances that Britain and France would provide supplies, but not

### LABOR:

over that he had attempted to sponsor a boycott of the mill's products by a Boston department store.

I That Philip G. Phillips, regional NLRB director at Cincinnati, had written his superiors that the city editor of the Cincinnati Enquirer was a "swell guy and a dear friend of mine," and had kept out of print a series of articles critical to NLRB. When the city editor and his boss denied this, Director Phillips said that his "language was ill-chosen." Earlier it was brought out that C. I. O. had refused to drop a com-plaint against a Cincinnati firm because the employer refused to rein-state a worker discharged for communistic activities.

@ That Nathan Witt, NLRB secretary whom Boardsman Leiserson would have fired, "plotted" with C. I. O.'s Steel Workers Organizing company to force Inland Steel into a written agreement providing for exclusive bargaining. Commented Committeeman Harry Routzohn (Rep., Ohio): "I think this consti-

tutes a conspiracy." After several days of this, committee members were reported ready to ask congress for major amendments in the Wagner act. So did several other groups, including C. I. O. and the National Association of Manufacturers.

DEFENSE: Navy Day

As Europe's war came nearer home (See PAN-AMERICA), two items of domestic news drew more attention than usual:

attention than usual:

(I At Washington the navy department awarded a \$20,016,699 contract for airplanes to the Consolidated Aircraft corporation at San Diego
(I At Quincy, Mass., the navy tested its newest airplane carrier, the \$21,000,000 Wasp, which steamed on a trial run along the New England coast with its secret deck equipment shrouded by tarpaulins.

### AGRICULTURE:

Woe

In today's unhappy agricultural plight, one of the sorrows of improved production methods is that increased acreage yields only glut the nation's already overfilled granaries. Thus, at year's end, the U.S. department of agriculture sadly announced that — despite acreage slashes in 1939—total farm production was in many cases above last year's.

Best example was corn, which yielded 29.5 bushels per acre compared with last year's 27.8 bushels and the 10-year average (1928-37) of 23 bushels. Reason for this boost was the new hybrid variety which Secretary of Agriculture Henry Wallace has promoted among the tall corn growers of his native Iowa. Although corn acreage harvested was the smallest since 1898, production was 2,619,137,000 bushels, the largest with one exception (1937) since 1932. and the 10-year average (1928-37) of

Among wheat, corn, oats, rye and barley, the only other increased grain crop was barley. Total grain production was 4,626,000,000 against 4,868,000,000 in 1938. Winter wheat (but not spring) was up 13,000,000

(Exhibited by C. E. Troyer of LaFontaine, Ind., who used it to win the "corn king" title at Chicago's international livestock show.)

bushels over the preliminary estimate on a harvested area 12,000,000 acres less than in 1936. Soy beans registered 87,409,000 bushels compared with the estimate of 63,000,-000 bushels. The cotton yield, unusually high, averaged 236 pounds per acre from the smallest acreage in 40 years. Tobacco also set a new yield record of 911 pounds per acre. total production also reaching a new high of 1,769,639,000 pounds.
Other farm news:

a Signed in Washington was a supplementary trade agreement be-tween the U.S. and Cuba, restoring tariff reductions on sugar and tobacco imports which were terminated by presidential proclamation when Europe went to war. Cuban tariff reductions were granted on peanut butter, salmon and mohair products, that nation also agreeing to maintain improved treatment for

C President Roosevelt told reporters he intended to ask congress to raise the \$550,000,000 "owed to the treasury" as a result of farm parity payments and other agricultural expenditures which were approved by the legislators, but not provided for.

# POLITICS:

Farm Vote

For several months many political forecasters have believed 1940's presidential election will be won or lost in the midwestern farm belt. As the preseason campaign drew to a close (it will start again after most of their ammunition on the progressive-minded farm belt. was Montana's Sen. Burton K Wheeler, himself a potential candidate, who warned that westerners

would vote the Republican ticket unless the Democrats nominate a "liberal." Explanation: " . . . their natural tendency has been with the Republican party and they could see no reason to change if a conservative Democrat is nominated."

Meanwhile the rumor spread that smart Republicans may try to swing to their cause two of the West's foremost liberals—Minne-sota's Sen. Henrik Shipstead, a Farmer-Laborite, and Wisconsin's Sen. Robert M. LaFollette, whose doughty father once dominated the G. O. P. Key man in this campaign is Minnesota's youthful Gov. Harold Stassen, a Republican whose masterful fence-straddling has welded a strong party consisting of progressive Republicans and disgruntled

right-wing Farmer-Laborites. Already committed to supporting Shipstead in the Republican pri-mary, Governor Stassen could easily extend his idea into neighboring farm states, where discontent with the administration's reciprocal trade program may prove a No. 1 talking point for Republicans in 1940.

New Zealand has a shipwrecks society and no shipwrecks. It was disclosed by the Shipwrecks Relief society that money is accumulating in the bank for want of disaster. The society obtains its finances from the shipping companies and the harbor boards of this country, all of which make an annual contribution. Year by year the funds grow larger. Now they stand at \$80,000 and are safely invested. This has resulted in the society now receiving more than it spends. The position is regarded with satisfaction by local governments, it seems. Mayor Arthur H. Allen of Dunedin has said: 'It is gratifying to know this money
